EVOLUTION EFFECT(MRG-250N, MRG-250X)

Moving, colored tunnels of light fan out, rotating for a mesmerizing, entrancing effect. Evolution can make your head spin or make you feet fly. Powerful in-air focus makes dancing a multi-color, mulit-dimensional trip. MRG-250N/X uses a patented mechanical rotation system that turns gobos with extraordinary precision. Features include superior optics, long life motors, axial fan cooling and a rugged extruded aluminum case, built-in audio control for convenience. There are two models of the Evolution available for customers' choice; MRG-250N is with the multi-colored arc mirror head, and MRG-250X is with the multi-colored moonflower mirror head.

XTC (XTC-250N)

Radical new effect to add to any show. Pyramid head design combined with three mirror and dichroic reflectors, shoots forth erratic bursts of sharp brightly colored beams to the beat of the music. Audio control, extruded aluminum case, Superior optics, Dichroic, high torque motors, axial cooling fan.

WILD BLAZE EFFECT (XMF-250N)

Panning, scanning, moving dichroic "flowers" sweep across the dance floor to the beat of the music. Wild Blaze features a special scanning mirror head with an adjustable angle setting. Superior optics, long life motors, axial cooling fans and a rugged aluminum case make this a long-lasting value.

BLAZE EFFECT (MF-250N)

Brightly colored light beams twist and turn to the beat of the music, making this moving, grooving, non-stop "flower" effect a standard of every club and mobile DJ. Superior optics, pure dichroic colors, and long-life, high torque motors make Geni's Blaze the right choice for buyers who want lasting value in lighting products.

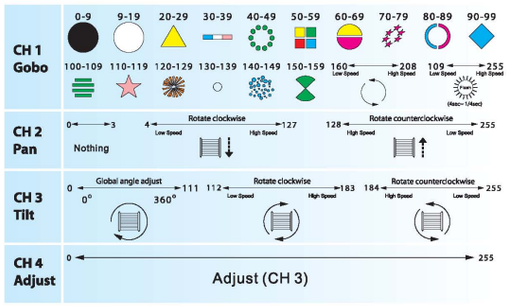
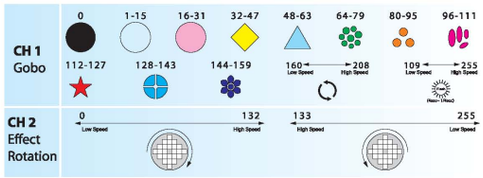
BURST–2X (BR–2X)

Unprecedented performance comes in this promising package the first 360-degree full-barrel effect with die-cast aluminum case made in Asia. Burst-2X has the form to entice and the functions to captivate. The first 360-degree full-barrel effect, Burst-2X radiates spinning, flipping 14 colored images-in all directions. Surprise customers with the flipping movement of this full-barrel effects.



SPYRO (SY–250/G)

The" flower with power", Spyro leaves traditional moonflowers behind. Spyro makes an exciting twisting, spinning vortex of color. And with eight dichroic colors+ open, strobe, and both DMX and audio control, you get creative power unseen in traditional moonflower effects. Gobo version (SY-250G) is also available. SPYRO can be specially and easily controlled by SY-1 simple wired controller to make splendid shows.



SY–1

COLOR BLASTER (CB–250T/B)

Beat the competition with this value-engineered color changer. COLOR BLASTER 250 delivers a broad, strong beam of colored light. You get ten dichroic colors + open, strobe and 1-100% dimming. Either turn on the music to enjoy a preprogrammed audio-controlled show or use DMX control both are chosen simply with the flip of a dip switch. Other user aids include focus assistance, selection of a four or eight-unit audio program, self-test function and DMX signal termination.

T-MAX

T-MAX series provide most abundant party light effects with minimum dimensions. Mini and stylish T-MAX will surely increase party atmosphere to the top while 4 sets or 8 sets work together. T-MAX series have 7 types; all series are plug and play design.

T-MAX 1

No scanner mirror head design, more tiny shape and easy installation. Including one clear dichroic moonflower dish, and the " non-stop" rolling moonflower effect added cheerful and pleasure atmosphere into small space or small party. The beautiful and rolling white beams make more abundant vision experiences.

T-MAX 2

No scanner mirror head design, more tiny shape and easy installation. Including one multi-color dichroic moonflower dish, and the" non-stop" rolling moonflower effect added cheerful and pleasure atmosphere into small space or small party. The beautiful and rolling colorful beams make more abundant vision experiences.

T-MAX 3

No scanner mirror head design, more tiny shape and easy installation. Including one clear dichroic moonflower dish, sound-control rolling moonflower effect added cheerful and pleasure atmosphere into small space or small party. While applies with many sets, the vast projecting scopes and sound-control's cross variations create more abundant vision effects.

T-MAX 4

No scanner mirror head design, more tiny shape and easy installation. Including one multi-color dichroic moonflower dish, sound control rolling moonflower effect added cheerful and pleasure atmosphere into small space or small party. While applies with many sets, the vast projecting scopes and sound-control's cross variations create more abundant vision effects.

T-MAX 5

Plane scanner mirror head design, enable moonflower effect to project at any corner freely, and colored every corner. Including one multi-color dichroic moonflower dish, sound-control rolling moonflower effect added cheerful and pleasure atmosphere into small space or small party. The sharp colorful beams could move smoothly with sound-control.

T-MAX 6

Color arc scanner mirror head design, which could create dazzling multi-moonflower effects, or straight line or overlapping rolling effects. Including one clear dichroic moonflower dish, sound-control rolling moonflower effect added cheerful and pleasure atmosphere into small space or small party. Vivid colorful beams make colorful overlapping 3D effects with music rhythm.

T-MAX 7

Quarter scanner mirror head design, which could create multi-moonflower effects, and the four moonflowers' separate rolling effects bring more vision pleasure. Including one multi-color dichroic moonflower dish, sound-control rolling moonflower effect added cheerful and pleasure atmosphere into small space or small party. Brighten beams project to whole place with music and ignite the exciting emotions to the top.
